

Resource Lists

IMPORTANT Your ability to work with resource lists is dependent on the permissions in your [Access Level](#).

You can create Resource Lists for various purposes.

EXAMPLES

A teacher creates a Resource List to share with the librarian for resources that she needs from the library.

A teacher creates a Resource List to provide students with a [reading list](#) for an assignment.

A student might create a Resource List to make a [citation list](#) for an assignment.

My Lists

If you did not log in to Destiny, you will see **My List**. If you did log in to Destiny, you will see **My Personal List**.

If you have a Personal List, no one else can see it unless you make it Public. Once you've made a Personal List public, you'll see a check mark in the Public column.

Public Lists

On the **Public Lists** tab are all the Resource Lists people made publicly available for viewing. If you are associated with multiple sites in your district, your Public Lists appear at the other sites as well as this one. (District users cannot create or view public Resource Lists.)

Options for your Lists

You can sort a list of Resource Lists in ascending order by clicking any of the column headings.

Click the column heading again to sort the Lists in descending order.

To view the contents of one of your Resource Lists, click the View icon.

If it appears, click **Add list** to add a new Resource List.

If it appears, click the Edit icon to change the name or description of your Resource List, or to make it public.

To delete a Resource List, click the Delete icon. Please note that you cannot delete your last or only list.
